

23rd August 2021

Dear Parents/Caregivers

This afternoon we were informed by the Prime Minister that Alert Level 4 for Auckland will continue until 11.59pm, Tuesday 31st August. We are hopeful after this extension that we will be able to return to school safely.

This extension of Alert Level 4 means that Home Learning will continue. We are very fortunate to have an amazing group of teachers who are there for their students and are providing exceptional learning opportunities. If you have any questions please remember to contact your child's teacher.

We have managed to deliver over 100 Chromebooks to our families and this has allowed them to stay connected and continue their learning. Thank you to our wonderful staff who delivered these devices.

I cannot stress the importance of you and your child's well-being during these challenging times, do what is manageable for your family with Home Learning.

Remember the importance of:

- Establishing a routine
- Sleeping and eating well
- Study and learning
- Recreation and relaxation
- Exercise
- Connection with family and friends through email/online/phone
- Keeping safe by following the guidelines

The Ministry of Education has developed a new hub for Pasifika families to support learning during lockdown. There are helpful updates on how Covid-19 impacts education and links to learning resources. [MOE Information](#)

The School Grounds are Closed: Please note that under Level 4 the entire school grounds are closed - please do not enter the school site.

A reminder that our team is here for you and your family and will answer any questions that you may have. Please keep in regular contact with your child's teacher.
